Being Thankful

I am thankful for having such a wonderful class this year. I am also thankful for the supportive parents. Your children work so hard in class every day and I am amazed at how much they've grown since the beginning of the year. I wish all of you a restful Fall Break and I hope everyone enjoys time with their family and friends. *-Mrs. Bryant*

Encore Schedule

11/25: Day 4—PE
11/26: Day 5—Art
11/27: no school
11/28: no school
11/29: no school

12/03: Day 2—PE
12/04: Day 3—Library
12/05: Day 4—PE
12/06: Day 5—no En-
core; early dismissal

What We Are Learning This Week:

- We will be continuing concepts from last week. Please see last week's newsletter for details.
- No math 4-square; No word study
- **Continue to read for 30 minutes, including during Fall Break!**
- **Next book blog is due December 18th. The genre is Traditional Literature. Students can earn +2 points extra credit for making meaningful comments on other students' blog postings, up to +10 extra points. Extra credit points can only be added to December's graded blog posting, but students can comment on any blog posting since the beginning of the year. I will review in class how to comment on blog postings. Students will need to submit a blog posting (online or handwritten) for December in order to earn the extra credit points.**
- Blogs posted by Friday, November 22 have been edited. Please make changes and re-post no later than November 26th. Handwritten posts turned in on Friday have been edited and returned. These will need to be re-written and turned in on November 26th. Blogs posted online or handwritten after Friday will not be edited and your child's choice for the graded blog must have a blog rubric slip turned in no later than Tuesday, November 26th.

Classroom News and Updates:

- Flour and salt are still needed for our ocean floor activity. This has been pushed back to December 3rd. We have plenty of boxes now—thank you!
- STEM Day is Tuesday. We will spend about an hour investigating science, technology, engineering, and math concepts.
- General classroom needs: hand sanitizer, white board markers, & pencils
- Save those large, plastic jars! I need a few of these for an upcoming demonstration about density. Jars need to have a mouth wide enough to insert large gravel and need to be clear. If you have a jar like this, please send it in. Ideal size would be a mayonnaise or pickle jar. The huge jar containing snacks like cheese puffs or pretzels would be too big. Please, no glass jars.

*Happy
Thanksgiving!*
